# Notes to the condensed interim financial information

30 June 2022 (Un-audited)

#### 1 LEGAL STATUS AND PRINCIPAL ACTIVITIES

Bank Nizwa SAOG ("the Bank") was registered in the Sultanate of Oman as a public joint stock company under registration number 1152878 on 15 August 2012. The Bank's shares are listed on the Muscat Stock Exchange "MSX" and its principal place of business is in Muscat, Sultanate of Oman.

The Bank's business operations commenced on 23 December 2012 and it currently operates through seventeen branches in the Sultanate under the banking license issued by the CBO on 19 December 2012.

The principal activities of the Bank are opening current, saving and investment accounts, providing Murabaha finance, Ijara financing and other Sharia compliant forms of financing as well as managing investors' money on the basis of Mudaraba in exchange for a profit share or agency in exchange for a fee, and excess profit as incentive providing commercial banking services and other investment activities.

The Bank's activities are regulated by the CBO and supervised by a Sharia Supervisory Board ("SSB") whose role is defined in Bank's Memorandum and Articles of Association.

At 30 June 2022, the Bank had 422 employees (June 2021: 406 employees).

The Bank's registered address is P O Box 1423, Postal Code 133, Muscat, Sultanate of Oman.

The Bank has received a letter from Sohar International SAOG on 23 November 2021 on their intention to merge with the Bank. The Bank is currently going through the due diligence process after receiving CBO approval.

#### 2 BASIS OF PREPARATION AND PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES

#### 2.1 Basis of preparation and presentation

The condensed interim financial information of the Bank for the six months period ended 30 June 2022 has been prepared in accordance with Financial Accounting Standards ("FAS") issued by the Accounting and Auditing Organisation for Islamic Financial Institutions ("AAOIFI"), as modified by Central Bank of Oman. In line with the requirement of AAOIFI, for matters that are not covered by AAOIFI standards, the Bank uses guidance from the relevant International Financial Reporting Standards ("IFRS"). Accordingly, the condensed interim financial information has been presented in condensed form in accordance with the guidance provided by International Accounting Standard 34 — 'Interim Financial Reporting'. The condensed interim financial information do not contain all the information and disclosures required in the financial statements, and should be read in conjunction with the financial statements as at 31 December 2021. In addition, results of the six months period ended 30 June 2022 are not necessarily indicative of the results that may be expected for the financial year ending 31 December 2022.

The condensed interim financial information is not audited. The comparatives for the condensed interim statement of financial position have been extracted from the audited financial statements for the year ended 31 December 2021 and comparatives for the condensed interim income statement, interim condensed changes in owners' equity, cash flows and sources and uses of charity fund have been extracted from the condensed interim financial information for the period ended 30 June 2021.

#### Significant accounting policies

The accounting policies used in the preparation of the condensed interim financial information are consistent with those used in the preparation of the annual financial statements for the year ended 31 December 2021, except as noted in 2.2.

#### Functional currency

The condensed interim financial information has been presented in Rials Omani (RO) which is the functional currency of the Bank.

The condensed interim financial information has been prepared on historical cost basis, except for the measurement at fair value of certain financial assets carried at fair value through other comprehensive income.

#### Judgements and estimates

The preparation of the interim condensed financial information in conformity with FAS as requires management to make judgements, estimates and assumption that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expense. Actual results may differ from estimates.

The basis and the methods used for critical accounting estimates and judgments adopted in the preparation of this condensed interim financial information are the same as those applied in the preparation of the annual financial statements of the Bank for the year ended 31 December 2021.

#### Financial risk management

The financial risk management objective and policies adopted by the Bank are consistent with those disclosed in the financial statements of the Bank for the year ended 31 December 2021.

30 June 2022 (Un-audited)

# 2.2 Restatement of comparative figures

For the year ended 31 December 2021, the Bank had adopted all of the amendments in standards issued by AAOIFI that were relevant to its operations and effective for the period beginning on 1 January 2021. However, these amendments were not adopted in the condensed interim financial information for the period ended 30 June 2021. Accordingly, the Bank has restated the effect of the new standards for the prior period condensed interim financial information for the period ended 30 June 2021. The below points summarises the impact of only those standards which led to impact on the prior period condensed interim financial information:

#### a) FAS 31 Investment Agency (Al-Wakala Bi Al-Istithmar)

The Bank had adopted FAS 31 as issued by AAOIFI on 1 January 2021. AAOIFI has issued FAS 31 Investment Agency (Al-Wakala Bi Al-Istithmar) in 2019. The objective of this standard is to establish the principles of accounting and financial reporting for the investment agency (Al-Wakala Bi Al-Istithmar) instruments and the related assets and obligations from both the principal (investor) and the agent perspectives.

The Bank uses wakala structure to raise funds from interbank market and from customers, and these were reported as due to banks and financial institutions and liabilities under due wakala accounts respectively as of 31 December 2020. All funds raised using wakala structure, together called "wakala pool" are comingled with the Bank's jointly financed pool of funds based on an underlying equivalent mudaraba arrangement. This comingled pool of funds is invested in a common pool of assets in the manner which the Bank deems appropriate without laying down restrictions as to where, how and for what purpose the funds should be invested.

After adopting FAS 31 on 1 January 2021, the Wakala pool is now classified as part of the Mudaraba pool of funding under equity of investment accountholders and the profit paid on these contracts is reported as part of determination of return on investment of equity of investment accountholders.

As per the transitional provisions of FAS 31, the entity may choose not to apply this standard on existing transactions executed before 1 January 2021 and have an original contractual maturity before 31 December 2021. However as the comingled pool arrangement has been in existence for all years, the Bank has decided to apply the standard retrospectively, thereby reclassifying all transactions outstanding as of the year end and the corresponding previous year end.

The adoption of this standard has resulted in change in classification of all Wakala based funding contracts as part of equity of investment accountholders and additional associated disclosures. The impact is as shown below:

Statement of income for the year ended 30 June 2021 restated:

#### b) FAS 32 Ijarah and Ijarah muntahia bittamleek

This standard supersedes FAS 8 "Ijarah and Ijarah Muntahia Bittamleek". The standard aims at setting out principles for the classification, recognition, measurement, presentation and disclosure of Ijarah type transactions, including their different forms entered into by an institution, in both the capacities of lessor and lessee. This standard brings significant changes from its predecessor standard (FAS 8), inter alia, in the following aspects:

- a) Changes in the classification. Ijarah transactions under in this standard are classified into the following: i. Operating Ijarah;
- ii. Ijarah MBT with expected transfer of ownership after the end of the Ijarah term either through a sale or gift; and
- iii. Ijarah MBT with gradual transfer with gradual transfer ownership during the Ijarah term including Diminishing Musharaka Ijarah;

#### 2.2 Restatement of comparative figures (continued)

#### b) FAS 32 Ijarah and Ijarah muntahia bittamleek (continued)

- b. New recognition and measurement principles for initial recognition for right-of-use asset, Ijarah liability and advance payments for lessee and lessor accounting. There is a new concept of recognizing right-of-use asset and Ijarah liability for lessee accounting which was previously accounted for under FAS 8 and recognized and classified as rent expense in statement of income;
- c. Requirement to identify and separate Ijarah and non-Ijarah components, if needed;
- d. New recognition and measurement principles for an Ijarah MBT through gradual transfer / Diminishing Musharaka Ijarah, whereby the lessee shall recognize the 'combined asset' (including the right-of-use asset and the proportionate asset already owned by the lessee) whereas the lessor shall recognize the proportionate asset owned. FAS 8 requirements of recording monthly depreciation and gain and loss for such transactions are done away with;
- e. Allowing effective rate of return/ profit rate method for accounting for rental income, in the hand of the lessor;
- f. Testing for impairment of right-of-use asset shall be subject to requirements of FAS 30 "Impairment, Credit Losses and Onerous Commitments"; and
- g. Detailed guidelines are provided for presentation and disclosures with enhanced disclosure by lessor and lessee of information as compared to previous requirements in FAS 8.

The adoption of this standard did not result in changes to the previously reported net profit or equity of the Bank. Accordingly, the Bank has decided to apply FAS 32 using the modified retrospective approach (i.e. the impact of all the eligible Ijarah contracts outstanding as of 31 December 2020) reflected in the balances as of 1 January 2021. Therefore comparative information has not been restated. The impact of the adoption of FAS 32 has resulted in an increase in the right to use assets (shown under property and equipment) and an increase in net Ijarah liability (shown under other liabilities). The lease contracts are related to the branches.

30 June 2022 (Un-audited)

#### 2.2 Restatement of comparative figures (continued)

#### c) FAS 33 Investment in Sukuk, Shares and Similar Instruments

The Bank had adopted FAS 33 as issued by AAOIFI on 1 January 2021.

The objective of this standard is to set out the principles for the classification, recognition, measurement and presentation and disclosure of investment in Sukuk, shares and other similar instruments made by Islamic financial institutions (IFIs). This standard shall apply to an institution's investments whether in the form of debt or equity securities. This standard replaces FAS 25 Investment in Sukuk, shares and similar instruments.

The standard classifies investments into equity type, debt-type and other investment instruments. Investment can be classified and measured at amortized cost, fair value through equity or fair value through the income statement.

Classification categories are now driven by business model tests and reclassification will be permitted only on change of a business model and will be applied prospectively.

Investments in equity instruments must be at fair value and those classified as fair value through equity will be subject to impairment provisions as per FAS 30 "Impairment, Credit Losses and Onerous Commitments". In limited circumstances, where the institution is not able to determine a reliable measure of fair value of equity investments, cost may be deemed to be best approximation of fair value.

The standard has been adopted effective 1 January 2021 and is applicable on a retrospective basis. However, the cumulative effect, if any, attributable to owners' equity, equity of investment account holders relating to previous years, shall be adjusted with investments fair value pertaining to assets funded by the relevant class of stakeholders.

The Bank has already implemented FAS 30 Financial Instruments (FAS 30) considering the CBO Circular BM 1149 dated 13 April 2017.

The adoption of FAS 33 has resulted in changes in accounting policies for recognition, classification and measurement of investment in sukuks, shares and other similar instruments, however, the adoption of FAS 33 had no significant impact on any amounts previously reported in the financial statements for the year ended 31 December 2020. However, as per FAS 33 and FAS 30, the investment carried at fair value through equity shall be tested for impairment at each reporting period in accordance with FAS 30. On 1 January 2021, the Bank has performed the impairment testing and based on that they have identified RO 1,929 k impairment on certain investments. Therefore, the cumulative effect as allowed as per the standards, the Bank has transferred the impairment from investment fair value reserve to retained earnings.

Statement of changes equity and Equity of unrestricted investment accountholders impact of FAS 33 for the period ended 30 June 2021:

#### 2.3 New standards, interpretations and amendments issued.

Standards, interpretations and amendments to existing standards issued effective up to the date of issuance of the Bank's interim condensed financial information are disclosed below.

FAS 38 " Wa'ad, Khiyar and Tahawwut" (effective 1 January 2022)

AAOIFI has issued FAS 38 "Wa'ad, Khiyar and Tahawwut" in 2020. The objective of this standard is to prescribe the accounting and reporting principles for recognition, measurement and disclosure in relation to Shari'ah compliant Wa'ad (promise), Khiyar (option) and Tahawwut (hedging) arrangements for Islamic financial institutions. Wa'ad and Khiyar are used by institutions in various forms. Some are ancillary to other transactions, whereas a few are used as primary products. This standard intends to provide accounting principles for both of these, as well as the Tahawwut transactions which are normally based on Wa'ad or Khiyar, or a series or combination thereof. This standard shall be effective for the financial periods beginning on or after 1 January 2022 with early adoption permitted. The Bank is currently evaluating the impact of this standard, however, based on the preliminary assessment, the Bank reasonably expects these issued standards, interpretations and amendments may not result in changes to previously reported net profit or equity, however, may result in additional disclosures at year end.

FAS 39 Financial Reporting for Zakah (effective 1 January 2023)

AAOIFI has issued FAS 39 "Financial Reporting for Zakah". The objective of this standard is to establish the principles of financial reporting related to Zakah attributable to different stakeholders of an Islamic financial institution and provides guidance on two main categories of institutions namely "institutions obliged to pay Zakah" and "institutions not obliged to pay Zakah". This standard improves upon and supersedes FAS 9 on "Zakah" and aims at setting out the accounting treatment of Zakah in the books of the institutions, including the presentation and disclosure by an Islamic financial institution. The Bank will evaluate the impact of this standard and will take into consideration and necessary adjustments accordingly.

#### 8 INVESTMENT IN REAL ESTATE

This represents investment in income generating industrial real estate, where 70% of the beneficial ownership is held by the Bank for a consideration of RO 14.175 million. Subsequently, the property has been leased under a master lease agreement for a period of ten years with a fixed rental amount.

Investment in real estate has been financed from Shareholders' funds and classified as self-finance investment and not included in the Mudaraba pool 'commingled pool'. All profits generated and costs in relation to the investment will be for the account of the Bank only and not subject to income distribution for the unrestricted investment accountholders.

The Bank follows sales comparison and investment approach-based valuation methodology and management believes that the fair value of investment in real estate is not materially different from its carrying value as at 30 June 2022. The valuation of asset is reviewed on regular basis to make necessary adjustment where required. At a minimum valuation is done at each reporting date either by engaging an external agency or through an independent internal unit.

#### 14 EARNINGS PER SHARE BASIC AND DILUTED AND NET ASSETS PER SHARE

#### a. Earnings per share

The calculation of basic and diluted earnings per share is based on the profit for the period attributable to ordinary shareholders is as follows:

	(Un-audited) Six months ended	(Un-audited) Six months ended	(Un-audited) Quarter ended	(Un-audited) Quarter ended
	30 June 2022	30 June 2021	30 June 2022	30 June 2021
Earnings for the period (RO'000) Weighted average number of shares	6,413	6,049	3,091	3,040
outstanding during the period	2,236,953,032	1,500,000,000	2,236,953,032	1,500,000,000
Earnings per share basic and diluted (RO)	0.003	0.004	0.001	0.002

Earnings per share basic and diluted has been derived by dividing profit for the period attributable to the shareholders' by weighted average number of shares outstanding. As there are no dilutive potential shares, the diluted earnings per share is same as the basic earnings per share.

# b. Net asset per share

Net assets value per share is calculated by dividing the shareholders' equity at the reporting date by the number of shares outstanding.

	(Un-audited) 30 June 2022	(Un-audited) 30 June 2021	(Audited) 31 December 2021
Net assets (RO'000)  Number of shares at reporting date	237,227 2,236,953,032	163,832 1,500,000,000	239,839 2,236,953,032
Net asset per share (RO)	0.106	0.109	0.107

#### 16 SEGMENT REPORTING

For management purposes, the Bank is organised into three operating segments based on business units and are as follows:

Retail banking offers various products and facilities to individual customers to meet everyday banking needs.

**Corporate banking** delivers a variety of products and services to corporate and SMEs customers that includes financing, accepting deposits, trade finance and foreign exchange.

**Treasury and investment banking** provides a full range of treasury products and services including money market and foreign exchange to the clients in addition to managing liquidity and market risk, in addition to asset management corporate advisory and investment products high net worth individuals and institutional clients.

Management monitors the operating results of the operating segments separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on operating profit or loss which in certain respects is measured differently from operating profit or loss in the financial statements. The costs incurred by the central functions are managed on an overall basis and are not allocated to operating segments.

Segment information is as follows:

Six months ended 30 June 2022 (Un-audited)	Retail banking RO'000	Corporate banking RO'000	Treasury & investment RO'000	Others RO'000	Total RO'000

#### 19 CAPITAL ADEQUACY

**20** 

The principal objective of the Central Bank of Oman's (CBO) capital adequacy requirement is to ensure that an adequate level of capital is maintained to withstand any losses which may result from the risks in a bank's balance sheet, in particular credit risk. CBO's risk based capital adequacy framework is consistent with the international standards of the Bank of International Settlement (BIS).

CBO requires the registered banks in the Sultanate of Oman to maintain minimum capital adequacy of 11 per cent based on letter BSD/2018/1 dated 20 March 2018. Additionally, it requires to maintain a capital conservation buffer (CCB) of 2.5 per cent annually in addition to 1 per cent of prompt corrective action. However, the circular BSD/CB/2020/001 dated 18 March 2020, relaxed the CCB requirements to 1.25 per cent and accordingly the minimum capital adequacy requirement has been reduced respectively. The ratio of equity to risk weighted assets, as formulated by the Basel III, is as follows:

Capital structure	(Un-audited)	(Un-audited)	(Audited)
	30 June	30 June	31 December
	2022	2021	2021
	RO'000	RO'000	RO'000

#### 22 IMPACT OF COVID-19

The coronavirus ("COVID-19") pandemic has spread across various geographies globally, causing disruption to business and economic activities. COVID-19 has brought about uncertainties in the global economic environment. The fiscal and monetary authorities, both domestic and international, have announced various support measures across the globe to counter possible adverse implications.

To ensure continuity of business, the Bank has formed a senior management task force to monitor the situation and has activated its business continuity plan and other risk management practices to manage the potential business disruption COVID-19 outbreak may have on its operations and financial performance.

The uncertainties caused by COVID-19, and the volatility in oil prices have required to update the inputs and assumptions used for the determination of expected credit losses ("ECLs") as at 30 June 2022. ECLs were estimated based on a range of forecast economic conditions as at that date and considering that the situation is rapidly evolving, has considered the impact of higher volatility in the forward-looking macro-economic factors, when determining the severity and likelihood of economic scenarios for ECL determination.

Bank has given specific consideration to the relevant impact of COVID-19 on the qualitative and quantitative factors when determining the significant increase in credit risk and assessing the indicators of impairment for the exposures in potentially affected sectors.

Bank has considered potential impacts of the current economic volatility in determination of the reported amounts of the financial and non-financial assets and these are considered to represent management's best assessment based on observable information. Markets however remain volatile and the recorded amounts remain sensitive to market fluctuations.

The Bank has performed an assessment of oil prices volatility and COVID-19 in line with the available guidance of the Central Bank of Oman ('CBO') and FAS, which has resulted in the following changes to the expected credit loss methodology and valuation estimates:

#### a) Expected Credit Loss (ECL)

The economic consequences of the Covid-19 outbreak on macroeconomic variables that are used in models are outside of the bounds for which FAS 30 models have been built and calibrated to operate. Moreover, the complexities of current governmental support programmes and regulatory guidance on the treatment of customer impacts, such as forbearance, payment holidays and the unpredictable pathways of the Covid-19 outbreak, have not previously been factored into the modelling. Consequently, FAS 30 models under the current economic conditions are generating outputs that do not accurately assess the actual level of credit quality. Therefore, overlays based on expert analysis are necessary to reflect ECL. In the short term, the focus is on refining model inputs and outputs in a consistent and explainable manner, including the use of model overlays. Wider ranging model changes for risk and loss models will take time to develop and need more real data on which models can be trained to be meaningful. Given the remaining significant uncertainties of Covid-19 and its impacts, it is early to determine if model recalibration or redevelopment will be required.

As at 30 June 2022, the Bank considered the same assumptions used at the end of reporting period of 2021 except for macro-economic parameters refresh due to oil price volatility for the determination of expected credit losses ("ECLs") in response to uncertainties caused by COVID 19.

The Bank is monitoring the economic environment in response to the COVID-19 pandemic and is taking actions to limit its exposure to sectors that are severely impacted

#### b) Accounting for deferment scheme and restructuring window

The Bank has allowed deferment of financial obligation of certain customers in line with the CBO circulars issued since March 2020 when the first deferment circular was issued Then subsequently in September 2020, March 2021 and September 2021 CBO issue circular to continue the scheme with certain criteria to assess customers eligibility. Per circular issued in September 2021, the deferment scheme for affected customers ended in December 2021, thereby allowing customers to defer repayment of financing until June 2022 and restructure financing until September 2022.
